SUMMARY

Engineer-turned-APM combining strong technical fundamentals with an impact-first, design-conscious mindset, **leading** cross-functional initiatives across **insurance and banking** for platforms **serving 200M+ customers**. Grace Hopper Speaker (2026) and active **leader in women-in-tech communities** (Rewriting the Code, AnitaB.org).

EDUCATION

BSc Honors in Computer Science | University of Alberta *May 2026*

- **Awards:** Dean's Honor Roll, Golden Key Award, Alberta Innovates Studentship, Jason Lang Scholarship
- **Leadership:** Professional Mentor @ Ada's Team, GRO Social Committee @ Manulife, Grace Hopper 2026 Speaker

EXPERIENCE

Associate Full-Stack Engineer- AI Platform Enablement *July 2026- Present*
Manulife *Toronto, ON*

- **Identified** fragmented file-transfer environments and unused transfers as drivers of technical debt and onboarding delays; **led** the Secure File Gateway Canada migration across **7+ teams**, reducing remediation effort by **68%** (22 to 7 hours) and onboarding time by **81%** (3 hours to 35 minutes), with zero production incidents.
- **Analyzed** documentation-related support tickets and stakeholder workflows to identify authoring and discoverability gaps; **redesigned** the Confluence information architecture and **launched a Rovo-powered AI** authoring workflow, improving documentation efficiency by **92%** and reducing missing-documentation tickets by **30%+**.

Software Engineer Intern (Product & Platform Engineering) *May 2025- August 2025*
Citi *Mississauga, ON*

- **Flagged a scalability constraint** in Citi's internal Developer Portal and led a cross-functional proof of concept for horizontal scaling; **3X** concurrent API capacity, eliminated a **single point of failure**, and enabled future team onboarding without requiring a full platform rebuild.
- Uncovered and closed the authentication-coverage gap across private API endpoints supporting services used by **200M+ customers**; partnered with security and engineering to design JWT authentication and role-based access control, **increasing protected-endpoint coverage from 98% to 100%**.

Business Systems Analyst Intern *May 2024 – Aug 2024*
Workers' Compensation Board (WCB) *Edmonton, AB*

- **Modernized reporting infrastructure** for WCB's Policy Account Management portal by **migrating 25%** of legacy SAS reports to SQL and redesigning data workflows with Business Analysts, **accelerating query performance** and improving reporting-data access for downstream teams.

PROJECTS

SCALE by ActionKin- Technical Product Lead & Software Engineer— GitHub *April 2025*

- **Led end-to-end** development of an **AI-powered sustainability platform** enabling **20+ organizations** to track SDG contributions and generate presentation-ready visual impact reports.

Intels- Product Designer & Android Developer — GitHub — Figma Prototype *November 2024*

- Recognized fragmented event creation, enrollment and check-in workflows for organizers and attendees; **designed end-to-end user flows** and an **Android prototype** featuring QR-based check-in, organizer-attendee role switching and randomized waitlist selection.

SKILLS

Product Strategy/Analysis: Problem Identification, Roadmapping, Stakeholder Alignment, Feature Prioritization, Success Metrics Definition, A/B Testing, Cross-Functional Program Management

Technical & Analytical: System & API Design, Java, Python, SQL, Google Analytics, Power BI, Tableau, Data Analysis

Design & Prototyping: Figma, Adobe XD, Wireframing, User Flows, High-Fidelity Prototyping, Product Mockups

Soft Skills: Cross-Functional Leadership, Stakeholder Communication, Mentorship, Agile Collaboration
